## Recycle Your Old Cell Phones at our Rotary Meetings

Though tiny, cell phones add up to a big pollution threat because they have the shortest average life span among consumer electronics (1.5 years). It is estimated that 100 million cell phones are discarded every year, 65,000 tons of hazardous trash. With over 200 million cell phones in use across the United States, plus another 500 million unwanted or outdated phones stocked piled in drawers, etc., that adds up to a lot of toxic waste, such as lead and mercury found in every unit, it is important to people's health as well as the environment to keep cell phones out of landfills and incinerators.

Through your re-cycling of used cell phones through Rotary, which are given to San Jose's Happy Hollow Park, 100% of the funds raised by Happy Hollow are donated to non-profit Orangutan Conservancy who is helping to preserve one of the most critically endangered species on earth, the orangutan and it's habitat. To learn more <http://www.orangutan.com/index.html>

Its a no-brainer - recycle your old unwanted cell phone by bringing them to a Rotary meeting, keep toxics out of landfills and help Orangutans.

Any resemblance between these pictures and current members of San Jose Rotary is expressly denied. The Orangutans would object! Call Romeo Danaïs with questions about the recycling program or the pictures.
